Attending: Anantram, Arabshahi, Hauck, Huberman, Kalavakonda, Li, Murali, Overly, Swanson

Items for Votes:

1. Proposal for New PMP Course: TinyML
2. Proposal for New PMP Course: Deep Learning for Embedded RT Systems
3. Proposal for Revised Language to the Graduate Programs “Satisfactory Progress Policy”

Vote Outcomes:

1. Proposal for New PMP Course: TinyML - **Approved**
2. Proposal for New PMP Course: Deep Learning for Embedded RT Systems - **Approved**
3. Proposal for Revised Language to the Graduate Programs “Satisfactory Progress Policy”
 - a. Last proposed language, from Huberman:
 - i. “Failure to meet the expectations specified above ****will**** result in the loss of department-supported funding (teaching assistantship and fellowship) **and may result in a loss of** faculty-supported RA funding, for students with Academic Probation status.”
 - b. Majority voted to approve
 - c. Dissent from Anantram (Faculty PhD Program Coordinator)
 - d. Hold for discussion.
