

Satisfactory Progress Policy

Proposal to update language - loss of
funding due to academic probation status

Jennifer Huberman, Lead Academic Counselor
Azadeh Yazdan-Shahmorad, Assoc. Prof and ROP Lead

Current Language

Satisfactory Progress Policy - Additional Requirements for PhD Students

- **Current policy states:**
 - **Failure to meet expectations listed above can result in a loss of funding commitments.**
- The expectations are listed out, but there are no details about when and specifically why this loss of funding might happen

Proposed Updates

- We would like to update this policy to state:
 - **From:** “Failure to meet expectations listed above can result in a loss of funding commitments.”
 - **To:** “Failure to meet expectations listed above will result in a loss of department supported funding commitments for students with Academic Probation status and may result in loss of RA funding.”
- If approved, we will then update our Academic Warning and Probation letters to support this. Right now we don't have any language to indicate that students might lose funding in the letters even though we do in our policy.
